DIGLINE Contact Roles

Member Representative: This **required** role is the primary point of contact for all DIGLINE correspondence and may authorize changes to company information, personnel, notification area, and transmission preferences. All unassigned roles will default to the Member Representative.

Alternate Representative: This **required** role is the secondary point of contact for all DIGLINE correspondence and may authorize changes to company information, personnel, notification area, and transmission preferences. The Alternate will fill any unassigned roles in the absence of the Member Representative.

Emergency Locate Contact: This **required** role will receive a phone call to confirm receipt of any locate requests issued with Emergency, Priority, or Second Request header codes, which require lines to be located sooner than the standard two business days. See *Member Manual Appendix B* for information on limiting or opting out of this service.

Accounting: This **optional** role is the primary contact for any billing questions, including payment of DIGLINE invoices. If unassigned, this role will default to the Member Representative.

Mapping and Notification Area: This **optional** role is responsible for the accuracy and maintenance of your company's territory information in DIGLINE's database and is the primary contact for any questions regarding this data. Multiple contacts may be assigned this role to make territory maintenance easier. If unassigned, this role will default to the Member Representative.

Pre-Designs: This **optional** role is responsible for responding to information requests on your company's existing underground facilities, primarily from engineering firms, for projects on which no digging is yet taking place. This contact will receive emails of any additional maps associated with Pre-Design tickets. The Pre-Design contact's information can be distributed to requestors if necessary. If unassigned, this role will default to the Member Representative.

Facility Requests: This **optional** role will be contacted directly by requestors regarding information on your company's existing underground facilities. This contact's information will be distributed to requestors, primarily from engineering firms. If unassigned, this role will default to the Member Representative.
